## TECHNICAL SKILLS

- Java
- Spring Boot
- Python
- React/Next.js
- React Native
- Angular
- HTML
- CSS
- MySQL
- Java Script
- Bootstrap
- ReactJs

# YUTHMI MINAANGA

## SOFTWARE ENGINEERING INTERN

### PROFILE

I'm a dedicated second-year software engineering student at the University of Westminster, excited about building practical solutions through technology. I have strong skills in programming, problem-solving, and teamwork, and I'm always eager to learn and take on new challenges. Ready to bring fresh ideas, hard work, and a positive attitude to real-world projects.

### EDUCATION

• **University of Westminster, UK | IIT** 2023 - PRESENT

#### Level 4 modules

Modules	Marks
• Mathematics for Computing	87
• Computer Systems Fundamentals	89
• Software Development I	80
• Software Development II	51
• Trends in Computer Science	67
• Web Design and Development	68

#### Level 5 modules

- Object-Oriented Programming
- Database Systems
- Software Development Group Project
- Robotic Principles
- Software Engineering Principles and Practice
- Data Structures and Algorithms

• **DEVI BALIKA VIDYALAYA COLOMBO 08** 2019 - 2022

#### Technology Stream

- Information Communication Technology A
- Science For Technology. B
- Engineering Technology B
- Z-CORE- 1. 86

## SOFT SKILLS

- Fast learning skill
- Event handling
- Content Writing
- Time Management
- Effective Communication
- Innovative Thinking
- Leadership and Project

## ACIVEMENTS

- Secretary of the IEEE Computer Society Student Branch Chapter of IIT (2024-2025)
- IEEEExtream 19.0 Global Hackathon Participation (2024)

## VOULUNTERING

### IEEE Computer Society Student Branch Chapter of IIT

- StackMedium Chair (2024/2025)
- Coderally 5.0 Vice-Chair (2024)
- IndustPro 3.0 - OC (2024)
- Webspire Editorial Co-Lead (2023)

### IEEE Student Branch Chapter of IIT

- CodeSprint X Secretarial Vice-chair (2025)

## PROJECTS

- **Full-stack sales-management system (2025)**  
Spring Boot, React/Next.js, MySQL

Implemented a Spring Boot REST API with SQL stored procedures for all CRUD operations.

- **Medi Passbook: Group Project (2025)**  
Spring Boot, ReactNative, MySQL

Collaborated on a digital passbook for personal medical records, focusing on data privacy and ease of access.

- **Real-Time Event Ticketing System: Spring Boot, Angular (2024)**

Developed a full-stack app for real-time ticket purchases, featuring secure payments and ticket verification.

- **Exam marks management system: Python. (2023)**

Developed a Python app for recording and calculating exam scores, with tools for grade analysis and student access.

- **Theatre management system: Java. (2024)**

Created a Java-based system to manage show scheduling, seat booking, and ticketing with optimised database interactions.

- **Ecoverse website: HTML, CSS, JavaScript (Group Project (2024))**

Built an eco-focused website with a group, incorporating responsive design and interactive features for user engagement.
